Profile

Clinical Project Manager with ten years of clinical operations experience, the last five managing global phase II and III studies at a CRO. Accountable for timelines, budgets of up to 25 million euros and cross-functional teams of 30 or more. Former CRA and Clinical Trial Manager, with a track record of on-time database locks.

Career highlights

- Delivered a 1,200-patient phase III study in 22 countries to database lock on the contracted date.
- Recovered a delayed study, bringing recruitment back on plan within six months through new countries and site support.
- Kept change orders within 5 percent of the original budget across three studies.
- Rated "excellent" by the sponsor in two consecutive relationship reviews.

Professional experience

Clinical Project Manager **April 2021 to present**
Global CRO (example) London, United Kingdom

- Lead global phase II and III studies in cardiometabolic diseases from start-up to close-out.
- Own study budget, forecasting and change orders and report to sponsor governance.
- Manage functional leads in monitoring, data management, safety and vendors.

Clinical Trial Manager **January 2018 to March 2021**
Global CRO (example) Reading, United Kingdom

- Managed country and site delivery for European regions of three studies.
- Led a team of 12 CRAs and tracked monitoring metrics.
- Prepared inspection-ready TMFs.
